

## COURSE EVALUATION

INSTRUCTOR: Tamara Moxham      DATE: 03/24/2010      COURSE: ITP 162

**1. What aspects of the teaching or content of this course do you feel were especially good?**

- The mentorship and lab study time were very helpful, as was the in-class practice on chunking (?) with peer feedback. The individual presentations were also helpful from both an informational and performance experience

**2. What changes could be made to improve the teaching or content of this course?**

- The ITP lab needs to equipment!!
- The group project's learning objective of getting "sold" on peer assessment, while important, did not match the amount of effort the assignment required. Maybe that's just because I was already "sold" on it going in and would have liked to use that time to improve in other areas

**3. Use the back for additional comments for special questions.**

-
