

Fantastic workshop! As I told Tamara, the 2<sup>nd</sup> group activity would have been better if people divided into skill level groups

I like the historical perspective. I wish, given another time & structure there was a chance to make more particular connections.

Tamara is a wonderful presenter!

- Worksheets would be great!
- Concise, interesting, helpful information
- Left me w/ a lot to think about

Pls feel free to be more assertive w/the group. I recommend your efforts; it's a hard one

Too much history was given. I wanted to work more on political correct signs.

I don't know that I really have a better understanding of what to do in these situations, but I guess more discussion is always good.

The information was interesting & helpful, although I woul've liked to talk more about knowing when to voice P.C. terms for Deaf speakers.

The examples given by the presenter did not bridge well with overall points- a little convoluted-often went from broad topic discussion to specifics without introduction to intermediate areas-no segway. But, the context was valuable.

Great topic! In retrospect, perhaps it would have been more productive to discuss P.C. signs in English 1<sup>st</sup> (maybe before attending the conference)- so that we could spend more time on the specifics of interpreting. But of course it's a jugs topic-----very happy to be a part of the discussion & the workshop.

NIMP tapes-use some excerpts in a longer workshop

One of best workshops I've attended-w/list of words (blue sheets?) need context to determine most appropriate ways (for myself).

I guess I expected to learn more idioms that are linked to PC terms.

### **Future topics/presenters:**

ASL idioms or interpreting abstract concepts.
